“Thank you so much for the great camp this year. My daughter has learned and improved so much that she blows me away with her new moves. I can’t wait for your next camp. One thing that I think separates you from other soccer training and camps that my daughter has Attended is the attention to detail on footwork before you teach any new moves or techniques. I think this has allowed her to pick up the skills that you taught much easier. She always has such a great time at your camps. Thanks for everything.
